Draw lines from the word to the sentence that is missing the word. The first word has been completed for you. Use different pen shades to make the lines clearer to follow.

- circle A _____ is a shape with three sides.
- cone A _____ is the perceptual structure of something.
- cube A _____ is a shape with straight sides.
- cylinder A _____ is a round shape.
- diagonal A _____ is a perfectly round, circular, and three-dimensional object.
- polygon A _____ is a two-dimensional shape that forms half a circle.
- rectangle A _____ is a three-dimensional shape with parallel sides and a circular cross section.
- rhombus A _____ is a three-dimensional shape with six square sides.
- semicircle A _____ is a parallelogram with four right angles.
- shape A _____ is a shape with four equal straight sides and four right angles.
- sphere A _____ has four sides of equal length but no right angles.
- square A _____ is a shape whose base is a circle and whose sides taper up to a point.
- trapezoid A _____ is a straight line connecting any two vertices of a polygon that are not adjacent.
- triangle A _____ or trapezium is a type of quadrilateral with at least one pair of parallel sides.
