

## Fill in the words: Maths, shapes

Name:

Class:

Date:

circle	cone	cube	cylinder
<del>diagonal</del>	polygon	rectangle	rhombus
semicircle	shape	sphere	square
trapezoid	triangle		

**Complete the phrase or sentences using the words above. Cross out the words as you use them. The first sentence has been completed for you.**

A diagonal is a straight line connecting any two vertices of a polygon that are not adjacent.

A \_\_\_\_\_ or trapezium is a type of quadrilateral with at least one pair of parallel sides.

A \_\_\_\_\_ is a three-dimensional shape with six square sides.

A \_\_\_\_\_ is a shape whose base is a circle and whose sides taper up to a point.

A \_\_\_\_\_ is a two-dimensional shape that forms half a circle.

A \_\_\_\_\_ is a parallelogram with four right angles.

A \_\_\_\_\_ is a three-dimensional shape with parallel sides and a circular cross section.

A \_\_\_\_\_ is a shape with three sides.

A \_\_\_\_\_ is a perfectly round, circular, and three-dimensional object.

A \_\_\_\_\_ is a shape with straight sides.

A \_\_\_\_\_ is a shape with four equal straight sides and four right angles.

A \_\_\_\_\_ has four sides of equal length but no right angles.

A \_\_\_\_\_ is a round shape.

A \_\_\_\_\_ is the perceptual structure of something.
