

## Spelling list: Science 7g Particle Model Theory

boiling	Distillation is the separation of a liquid from other liquids by <b>boiling</b> it and condensing the steam.
condense	Steam will <b>condense</b> into water drops on the cold window.
density	Gold is very heavy, its <b>density</b> is high.
diffusion	<b>Diffusion</b> is the movement of something from an area of high concentration to a lower concentration.
dissolve	To <b>dissolve</b> is to mix a solid with a liquid so it becomes a liquid too.
expand	The entrepreneur wants to <b>expand</b> his enterprise.
freeze	You can <b>freeze</b> the video at any time.
liquid	Condensation is the change from a gas to a <b>liquid</b> or solid.
melting	The snowflake fell upon my face, <b>melting</b> away the warmth.
particle	Scientists believe that everything is made of tiny particles.
solid	To dissolve is to mix a <b>solid</b> with a liquid so it becomes a liquid too.
