

Spelling list: Technology, Online Safety & Cyberbullying

In today's digital world, understanding online safety is crucial. Students use the internet for learning, socialising, and entertainment, but it's important to know how to stay safe online. Terms like *password*, *privacy*, and *block* help protect personal information and ensure positive online experiences. While issues like *cyberbullying* and *spam* can make the internet feel unsafe, knowing and understanding them can be empowering. This word list includes key terms related to *online safety and cyberbullying*, providing example sentences to help students protect themselves and others while navigating the online world.

privacy	Privacy refers to keeping your personal information safe and only sharing it with trusted people.
